Title I Surveys indicated three areas to become goals for SGE; climate, teacher retention, and achievement. It was discussed that a better system of getting surveys back needs to be put in place. This led to a discussion of papers going home and parents not getting the information until after the fact or not at all. The papers getting to teachers in time could be the problem. It will be addressed for next year's papers. It was suggested that a Sixth grade performance take place to have more parent involvement in the survey.

USC active classroom/interactive classroom was introduced as a program that SGE will be participating in next year.

Title I- Reflex Math has been purchased for Math facts. The initial Title I Plan has been submitted but will not be approved until June. Changes will be made and money will be given in July.

Moving towards testing online, we need more Chromebooks. Mrs. Wukela wanted to make sure SGE received the same number of Chromebooks as other schools in the District. Mrs. Leroy said she would check into this.

SIC Spring training dates will go out soon. They offer a training session. Mrs. Wukela can schedule the meeting and other schools can attend.
